

GAITERS 3000 BAR

SAVING LIVES

This PPE garment is designed and certified to protect the wearer against injury caused by accidental exposure to moving high-pressure jets. The garment provides high-pressure water jet protection in specific areas, illustrated as striped in the image below. On the garment, the glossy outer fabric indicates where the protective areas are.

GAITERS 3000 BAR

- To be worn on the outside of regular protective boots.
- The entire area around the leg and the foot is protected.
- Very comfortable and light to wear.
- Easy to adjust for a perfect fit.
- Specific right and left foot designs. Sold in pairs.

STRIPED AREAS ARE PROTECTED
