

GLOVES 500 BAR

SAVING LIVES

Approximately 90 % of the injuries in the industry occur on hands and feet. TST is the only company on the market offering protective gloves that are tested and approved. Our Gloves 500 bar in Dyneema®, the world's strongest fiber, are specially made for water jetting and environments where oil, water and dirt are common. The material and the rough, sand patterned surface dipped in nitrile rubber, make the gloves waterproof and provide the best possible grip. The large cuffs make the glove easy to take off which is important in the event of an accident.

GLOVES 500 BAR

The gloves have been tested and classified according to below:

- 4 out of 4 in abrasion
- 4 out of 4 in tear
- 2 out of 4 in puncture resistance
- D out of F in cut resistance TDM (EN ISO 13997)

• Waterproof Gloves with protection up to 500 bar / 7 500 psi.

• Available in two sizes: 9 (about S-M) and 11 (about L-XL).

• Separate inner gloves in nylon for optimal comfort and washability.

• Supplied in 12-pack, including inner gloves. Shelf life up to 3 years.
