

# VENTILATION VEST

SAVING LIVES

*Staying comfortable while performing strenuous work like water jetting in warm environments can be a challenge. The new Ventilation Vest provides an ideal solution by effortlessly adding ventilation to your workwear. Lightweight and flexible, this stand-alone garment fits easily under any jacket, vest, or apron. With a simple connection to a compressor via its 6.3 mm integrated hose, it provides constant cooling, helping operators stay focused and comfortable throughout the workday.*

## VENTILATION VEST

- Provides efficient ventilation with a constant airflow by connecting the integrated hose to a compressor.
- Keeps the operator cool and comfortable throughout the entire work shift.
- Designed as a standalone ventilated garment; it can be worn under any jacket, vest or apron.
- Size-adjustable thanks to double-button design.
- Lightweight and easy to wear, allowing for full mobility and flexibility on the job.
- Ideal for hot and demanding environments, reducing heat stress and increasing comfort.
- Washable in 40°C / 104°F.
- The inner diameter of the integrated hose is 6.3 mm. Hose coupling is not included.
