

SAVING LIVES

APRON

This PPE garment is designed and certified to protect the wearer against injury caused by accidental exposure to moving high-pressure jets. The Apron can be upfolded and fastened, for easier work in stairs and on ladders.

APRON

- Water jet protection on the whole area of the Apron.
- Adjustable shoulder band for good comfort and easy donning.
- Very easy to put on and take off. Can easily be used by multiple operators.
- Can be upfolded and fastened for easier work in stairs and on ladders.
- Often used in combination with Hand Protections and Gaiters or Boots 3 000.
